

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Danny Martic  
DOCKET NO.: 04-21458.001-R-1  
PARCEL NO.: 12-25-423-032-0000

The parties of record before the Property Tax Appeal Board are Danny Martic, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C. in Chicago, Illinois, and the Cook County Board of Review.

The subject property consists of a 3,125 square foot parcel which has been improved with a three-story mixed-use building consisting of four apartment units and two retail units. The building is of masonry exterior construction and 31 years of age. The building contains 6,711 square feet of building area and features a partial unfinished basement, four full baths, two half-baths, and central air conditioning. The property is located in Chicago, Leyden Township, Cook County.

The appellant in this appeal submitted documentation to demonstrate that the subject property's improvement was being inequitably assessed. No dispute was raised with regard to the land assessment. The appellant provided data on four comparables in a grid analysis along with color photographs of the subject and comparables. The comparables are all said to be in the same neighborhood code as the subject property.

The four suggested comparables consist of one three-story and three two-story mixed-use masonry buildings ranging in age from 37 to 79 years old. The buildings contain from three to five apartment units and from one to three commercial units. Three of the comparables have unfinished basements, one comparable has a concrete slab foundation; two of the comparables have central

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	3,749
IMPR.:	\$	41,943
TOTAL:	\$	45,692

Subject only to the State multiplier as applicable.

air conditioning. These comparable buildings range in size from 6,150 to 7,832 square feet of building area and have improvement assessments ranging from \$35,625 to \$57,059 or from \$4.55 to \$8.14 per square foot of building area. The appellant also submitted the final decision issued by the Cook County Board of Review wherein the subject's total assessment of \$69,178 was disclosed. The appellant indicated the subject had an improvement assessment of \$65,429 or \$9.75 per square foot of building area. Based on this evidence the appellant requested the subject's improvement assessment be reduced to \$41,943 or \$6.25 per square foot of building area.

The board of review did not submit its "Board of Review Notes on Appeal" or any evidence in support of its assessed valuation of the subject property.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds the evidence in the record supports a reduction in the subject's assessment.

The appellant argued assessment inequity in the subject's improvement assessment. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data the Board finds a reduction is warranted.

The Board finds the only evidence pertaining to the uniformity of the subject's improvement assessment was submitted by the appellant. The appellant provided nominal data on four comparables which ranged in size from 6,150 to 7,832 square feet of building area and had improvement assessments ranging from \$35,625 to \$57,059 or from \$4.55 to \$8.14 per square foot of building area. The appellant's evidence disclosed the subject had an improvement assessment of \$65,429 or \$9.75 per square foot of building area, which is above the range established by the comparables. The board of review did not submit any evidence in support of its assessment of the subject property or to refute the evidence presented by the appellant as required by section 1910.40(a) of the rules of the Property Tax Appeal Board. The Board has examined the information submitted by the appellant and finds, based on this limited evidence that was not

refuted, a reduction in the assessed valuation of the subject property's improvement is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
